

Objective: Power BI Desktop, Cloud Service and End to End Workflow.

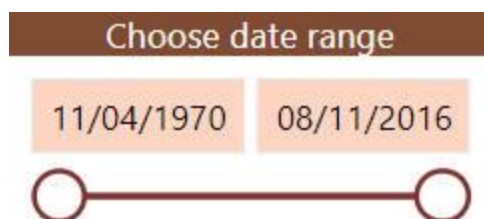

Topic: Charts.

Exercise: Create date and normal slicers on one page to affect visuals on other pages.

- On the empty Choices page, add the following slicers:

- Add in a slicer allowing you to choose the event date:

- Using the Sync slicers pane, configure your report so that the slicers only appear on the first page, but apply to the other pages:
